

PC-175

press wash & screen image opener

DESCRIPTION

PC-175 is a powerful, fast acting press wash and screen image opener. This product is formulated using non-hazardous, biodegradable organic solvents. An excellent solution for press side wash up, on press color changes, equipment clean up, adhesive removal and in preparation for screen reclaim. PC-175 is designed for use on plastisol, conventional, solvent, UV, vinyl, enamel, epoxy and water based inks. Also great for removing vinyl adhesive!

ADVANTAGES

- Powerful and fast evaporating
- Does not leave residue behind
- Non-flammable
- High solvency
- Safe on emulsions and mesh
- Easily removes vinyl adhesive

DIRECTIONS

Spray or wipe the affected area with PC-175 on the ink side of the screen. Continue to wipe the area, turning the towel frequently until dry. Before resuming printing, always test your print quality on test materials to ensure all residue has been eliminated.
